HEALTH**
CONFERENCE HOST & SPONSOR

11th PREMUS, 6th WDPI, & 11th MYOPAIN International Scientific Conference

on Prevention of Work-Related Musculoskeletal Disorders, Work
Disability Prevention and Integration, and Myofascial Pain
Syndrome & Fibromyalgia Syndrome

ABOUT PREMUS, WDPI, & MYOPAIN 2023

Intending to transform healthcare with all the ground breaking innovations in the Prevention of MSDs and Disability Prevention and Integration, the PREMUS, WDPI, & MYOPAIN 2023 Conference is your only forum for exploring future research collaborations with over 500 global experts.

PREMUS and WDPI are the international conferences of the Musculoskeletal Disorders (MSD) and Work Disability Prevention and Integration (WDPI) Scientific Committees of the International Commission on Occupational Health. MYOPAIN is the World Conference of the International Myopain Society.

MAIN OBJECTIVES

- 1** To promote and disseminate research into state-of-the-art interventions aimed at the prevention of musculoskeletal disorders at work
- 2** To foster cross-disciplinary, trans-disciplinary and transliteration research into the etiology and prevention of work-related MSDs
- 3** To provide an international platform for the exchange of knowledge and expertise in musculoskeletal research and practice related to occupational MSD prevention
- 4** To provide a forum for exploring future research collaborations to address gaps in knowledge about work-related MSDs

PROGRAMME SCHEDULE

SEP 20

Wednesday

PRE-CONFERENCE WORKSHOPS

SEP 21

Thursday

PRE-CONFERENCE WORKSHOPS

Opening Ceremony and Welcome Reception

SEP 22

Friday

MAIN CONFERENCE

- 2 Keynote speech,
- 15 parallel oral sessions/symposia/workshops,
- 2 poster sessions

SEP 23

Saturday

MAIN CONFERENCE

- 2 Keynote speech,
- 15 parallel oral sessions/symposia/workshops,
- 2 poster sessions

SEP 24

Sunday

MAIN CONFERENCE

- 2 Keynote speech,
- 15 parallel oral sessions/symposia/workshops,
- 2 poster sessions
- Closing Ceremony

SEP 25

Monday

POST-CONFERENCE WORKSHOPS

SEP 26

Tuesday

POST-CONFERENCE WORKSHOPS

ORGANISER

Recoup Health

CO-ORGANISERS

Indian Myopain Society

Indian Ergonomics School

International Ergonomics School

SUPPORTING ORGANISATIONS

Federation of Indian Chambers of Commerce & Industry

International Ergonomics Association

International Myopain Society

International Commission on Occupational Health

Indian Society of Ergonomics

Indian Society of Lifestyle Medicine

Indian Association of Occupational Health

Indian Rheumatology Association

All India Occupational Therapist Association

Indian Association of Occupational Health Karnataka

THEME: “Prevention of Musculoskeletal Disorders in the New Ways of Working”

SUB-THEMES:

PREMUS

- Impact of the Covid-19 pandemic on WRMSDs
- Work-ability and Long Covid symptoms
- Return to work (RTW) in highly physically demanding jobs
- Guidelines regarding the new ways of working, especially for jobs with a high level of physical proximity (different physical layout and new shift schedules) in the post-pandemic period
- Prevention and management of MSDs in different work scenarios (traditional on-site, remote, hybrid)
- MSD risks and solutions for the “Gig” economy / socioeconomically vulnerable workers
- The impact of climate change on work and MSDs
- Mechanisms and models of MSDs
- Virtual assessment tools for risk factors of MSDs
- An economic evaluation of interventions to prevent or manage MSDs
- Prognosis of MSDs
- Role of lifestyle factors in prevention and management of WRMSDs
- Integrative medicine (Ayurveda, Yoga, etc.) in the prevention and management of WRMSDs

WDPI

- Public Policy and Economics
- Employer policies and practices
- Integration of clinical and occupational care
- Workplace interventions
- Psychosocial factors in return to work (RTW)
- Workplace factors in RTW
- RTW for specific patient populations (traffic injuries, cancer, mental health, chronic illness, etc.)
- Assessing functional capacity and readiness for RTW
- Special populations (aging, socioeconomic factors, precarious work, health care workers)
- Disability risk prediction and explanatory models
- Societal factors in work disability
- Insurance system interactions and work disability
- Individual Placement and Support / Supported Employment
- Telehealth / Telemedicine in WDPI
- Work disability prevention from a systems perspective
- Role of lifestyle factors in WDPI

MYOPAIN

- Risk factors, pathogenesis, diagnosis and management of Myofascial pain syndrome, Fibromyalgia Syndrome, and Soft tissue pain conditions in workers (Myopain Conditions)
- Effect of COVID-19 pandemic on Myopain conditions
- Onsite and Virtual management of Myopain conditions
- Work disability, prevention and integration in Myopain conditions

WHO SHOULD ATTEND?

PREMUS, WDPI, & MYOPAIN 2023 is targeted at delegates who share an interest in understanding the causes and prevalence of WRMSDs, as well as the evidence-based interventions that will prevent them and manage it to prevent disability.

Scientists, academics, and students

from a wide range of disciplines—human factors, industrial engineering, occupational health, occupational safety, disability prevention, health policy, epidemiology, economics, medicine, physical therapy, kinesiology, ergonomics, public health and more—whose research addresses musculoskeletal health issues

Clinicians

including physicians, chiropractors, osteopaths, physiotherapists, kinesiologists, occupational therapists, occupational health nurses, clinical psychologists

Ergonomists

workplace-based practitioners in occupational health and safety, disability management and return-to-work

Policymakers

in labour, health, public health, and workers' compensation

Advocates

for workers and injured workers

General Public & Media

with an interest in evidence-based approaches to identifying, measuring, treating, and preventing WRMSDs

All keynote speakers will be recognized for their leadership and international expertise. All scientific submissions will go through a peer-review process to ensure presentations reflect high quality research.

Submission Categories

- | | |
|--|---|
| 1 Oral presentation
(10 minutes) | 5 Round Table
(90 minutes) |
| 2 E-poster
(3 minutes, 5 slides) | 6 Workshop
(2 hours and 3 hours) |
| 3 Lectures
(20 minutes) | 7 Pre-Conference
Workshop
(8 hours) |
| 4 Symposium
(90 minutes) | 8 Post-Conference
Workshop
(8 hours) |

Important Dates

Abstract Submission Deadline

May 15, 2023

Abstract Acceptance Notification

June 1, 2023

Early Bird Registration Deadline

June 15, 2023

Deadline to Confirm Acceptance to Present

June 15, 2023

All proposals will undergo review by the Scientific Committee.

KEY AWARDS (UNDER EACH CATEGORY - PREMUS, WDPI, & MYOPAIN)

The best 3 oral presentations and posters would be given certificates.

Young Researcher Award for e-Poster Presentation (Eligibility: less than 40 years of age).

Student Researcher Award for e-Poster Presentation (Eligibility: Masters / PhD student).

Competitive Grants - Registration Fee Waiver for 5 students or applicants from low, and low- and middle-income countries (based on accepted abstracts).

Abstract proposals must be submitted via the conference website only. Proposals submitted by email or post will not be accepted.
